

719-715-G1

Wey-TEK HD®

REFRIGERANT CHARGING SCALE

The worlds first and most advanced Bluetooth enabled refrigerant scale. This large wireless platform communicates and displays data through your smartphone (optional hand piece available - see opposite). Offering Full F-Gas traceability for the low / high alarm settings and easy monitoring on the charge or recovery process

- A free downloadable app to your smartphone (compatible with IOS iPhone 4S and above and Android)
- The apps 'JOB LOG' feature keeps track and stores your data which can then be emailed or taken as a 'Snapshot'

Optional hand piece which can be used in Lieu of smartphone via Bluetooth transmission.

- Large vivid colour display is easy to read, even in direct sunlight. Auto shut-off 20mins and screen dimming
